Suara Serangga Papua: 8(5): 147-151

On Saturday, 27<sup>th</sup> May 2006, a group of young entomologists\* established Kelompok Entomologi Papua (KEP – Entomological workgroup Papua). On the 8th anniversary, on Tuesday 27 May 2014, all local entomologists and those who support the group were invited for a three hours meeting at APO, the home of Henk van Mastrigt, and the Koleksi Serangga Papua (KSP – Collection of Papuan Insects) and library.

At this meeting twenty-three young people were present (see fig. 1 with names beneath). In order to ensure the future of the group and to cooperate with Perhimpunan Entomologi Indonesia (PEI – Entomological Society Indonesia), it was unanimously decided that all become member of PEI Branch Jayapura, replacing KEP. For the time to come APO will remain the home of the collection, library and activities, but in the future it will move to Universitas Cenderawasih, FMIPA, at Waena. This decision is supported and agreed by Dirk Y.P. Runtuboi, Chairman Dept Biology FMIPA UNCEN.

\* Daawia, Hanna Kawulur, Evie L. Warikar, Euniche R.P.F. Ramanday, Edy M. Rosariyanto, Yoh. Don Bosco Maro, Rinto H. Mambrasar, Windarti Fauziah, Herlina Menufandu, Ferra Ice Manobi, Henk van Mastrigt.

The meeting proposed the following board for 2014-2017:

Chairman: Henricus J. G. (Henk) van Mastrigt; Secretary: Evie Lilly Warikar, M.Sc.; Treasurer: Euniche R. P. F. (Ika) Ramandey, M.Sc.; Member: Beatrix (Bea) Wanma, M.Si.

Fig. 1. Board of PEI Branch Jayapura (from left to right): Beatrix Wanma, Henk van Mastrigt, Evie Lilly Warikar and Euniche R.P.F. Ramandey.

Based on Statutes and Internal Regulations of PEI, Branch Jayapura will develop activities focused to Papua (the Indonesian provinces of Papua Barat and Papua, or the western part of New Guinea and its surrounding islands), with special attention to the following activities:

1. Cooperation and assistance to Papuan universities, covering research with students, guidance with field work and final papers; and assisting teachers in secondary schools with programs on Papuan entomology (section research).
2. Publications with special attention to *SUara serangGA PApua* (SUGAPA- Voice of Papuan Insects); this section on publication will continue to use the name KEP).
3. Responsibility for the Koleksi Serangga Papua (K.S.P) in Jayapura, maintain and expand data of Papuan insects and maintain the library to which access will be given to all members of PEI Branch Jayapura (section library).

Personnel for the above mentioned sections - and for other sections if needed – will be appointed later.

To achieve the aims mentioned above, PEI Branch Jayapura will welcome specialists from other parts of Indonesia, continue the relationship with the Papua Insects Foundation and cooperate with and welcome foreign entomologists. In this way, the knowledge of members of PEI Branch Jayapura, teachers and students in Papua will be enhanced.

The frequency of meetings PEI Branch Jayapura will be four times a year.

The attached letter 266/PP-PEI/VI/2014 from Prof. Ir. Y. Andi Trisyono, M.Sc, Ph.D confirms the establishment of PEI Branch Jayapura with the board members mentioned above.

### SURAT KEPUTUSAN KETUA PENGURUS PUSAT PERHIMPUNAN ENTOMOLOGI INDONESIA

Nomor : 266/PP-PEI/VI/2014

tentang  
Pengesahan Susunan Pengurus  
**Perhimpunan Entomologi Indonesia Cabang Jayapura**  
periode 2014-2017

### KETUA PENGURUS PUSAT PERHIMPUNAN ENTOMOLOGI INDONESIA

#### Menimbang :

1. Program Kerja Utama Pengurus Pusat Perhimpunan Entomologi Indonesia periode tahun 2012–2015 yang disampaikan pada akhir Kongres Entomologi VIII di IPB International Convention Centre (IICC) Bogor, pada tanggal 25 Januari 2012.
2. Surat Pembentukan Cabang Jayapura No. 045/UN20.1.5.1/PP/2014 tanggal 27 Mei 2014 tentang Pembentukan Pengurus Perhimpunan Entomologi Indonesia Cabang Jayapura Periode tahun 2014-2017.

#### Mengingat :

1. Anggaran Dasar Perhimpunan Entomologi Indonesia Pasal 11, 13, dan 14.
2. Anggaran Rumah Tangga Perhimpunan Entomologi Indonesia pasal 34.

#### Memutuskan :

1. Mengangkat dan Mengesahkan Pengurus Perhimpunan Entomologi Indonesia Cabang Jayapura periode tahun 2014-2017 dengan susunan seperti tersebut dalam Lampiran.
2. Pengurus Cabang Perhimpunan Entomologi Indonesia bertugas untuk menghimpun peminat entomologi, mengembangkan ilmu tersebut, dan mengamalkan pengetahuan yang diperoleh untuk kesejahteraan manusia.
3. Surat Keputusan ini mulai berlaku sejak tanggal ditetapkan dengan ketentuan bahwa segala sesuatu akan diubah dan diperbaiki sebagaimana mestinya bilamana dikemudian hari terdapat kekeliruan.

**Prof. Ir. Y. Andi Trisyono, M.Sc, Ph.D**

## Guidelines for authors

Suara Serangga Papua (SUGAPA) consists of publications concerning insects in Papua, Indonesia or related to this area (e.g. about Papua New Guinea). All articles are in the English language with a short English abstract and a more comprehensive Indonesian one, and if requested with a short abstract in the language of the author. Results of surveys by students from the universities in Papua will be accepted in the Indonesian language, with a comprehensive English abstract. However, the Indonesian articles will cover one fourth of the content (8 of 32 pages) or less.

The authors are requested to attune the manuscript to recent number of SUGAPA, with special attention to the following:

- Send the printed text, including figures, by post and the plain text with figures in separate files by email to the Board of Editors.
- Figures (photographs, drawings, maps) can be sent by CD or by email (however, not more than 3 Mb per email, not more than two emails at the same time/day), to avoid problems with receiving.
- Mention all author names with full address, and email-address.
- Mention at most five key words, but no words from the title.
- Scientific names of insects must be completed with author and year, but only at the first time the name is used in the main part.
- Mention males as 'm' and females as 'f'; to avoid problems by sending and conversion.
- The references must be complete as shown in the following examples:

- Coombs, M. and Kahn, S.A. 1997. New host/parasitoid records from Australian Pentatomidae, Tachinidae and Braconidae. *Australian Entomologist* 24: 61-64.
- D'Abrera, B. 1978. The Butterflies of the Australian Region. 2<sup>nd</sup>, revised edition, Landsdowne Press, Melbourne, Australia; 415 pp.
- James, D.G. 1990. Incidence of egg parasitism of *Biprorulus* *bibax* Breddin (Hemiptera: Pentatomidae) in southern New South Wales. *General and Applied Entomology* 22: 55-60.
- Parsons, M.J. 1998. The Butterflies of Papua New Guinea. Their Systematics and Biology. Academic Press, London; 736 pp, xxvi + 104 pls.
- van Mastrigt, H.J.G. 1989. Taxonomy of the *Delias mesoblema* subgroup from Irian Jaya (Lepidoptera: Pieridae). *Entomologische Berichten*, Amsterdam 49: 8-14, 13 figs.

For names of musea and private collections only abbreviations are used in the text; a list of abbreviations used is placed after the introduction.
