Abstract: A new name is proposed for the homonym *Tmesisternus ramues* Withaar, 2018.

Rangkuman: Nama baru diajukan untuk homonym *Tmesisternus ramues* Withaar, 2018.

Introduction

In his publication, Withaar (2018) accidentally published a new species which he named *Tmesisternus ramues*, neglecting the fact that he already described another species with the same name (Withaar, 2016). Therefore a new name is necessary.

***Tmesisternus ramuensis* nom. nov.**

urn:lsid:zoobank.org:act: CAB811F6-B9CD-46C4-A552-2A89037B5B96

Tmesisternus rameus Withaar, 2018 **homonym nov.** (nec *ramues* Withaar, 2016)

(urn:lsid:zoobank.org:act: 924196DF-28E9-4C6F-8432-62C1150C2739)

Holotype *rameus* Withaar, 2018: ♂, [Papua New Guinea, Madang Province] Ramu exp. Leg. Rodatz und Klings [RMNH].
